November 9, 1988

To Whom It May Concern:

The City of Sugar Land has had the pleasure of working with Mr. Dean Carpenter and his firm, Houston Landscapes Unlimited, for over two and one-half years. During that time, the company has completed projects ranging from the removal of large trees to hydromulching and sodding. Additionally, the City has taken advantage of Mr. Carpenter's expertise in the areas of beautification and landscaping.

The quality of workmanship and product provided by Houston Landscapes Unlimited has met or exceeded the City's rigid specifications in every instance. While a governmental entity such as a city is bound by statute to follow prescribed purchasing procedures, we have never had to sacrifice quality in working with the company. All else aside, Houston Landscapes Unlimited has always displayed an attitude of "We are not satisfied until you are".

Departments within the City that have employed Houston Landscapes Unlimited heartily endorse their capabilities.

Sincerely,

Mike Hobbs
