Dear Dean,

Thank you for doing such an outstanding job on our landscaping. The front and back of the house have received many compliments, and we are very pleased with your final results. You and your employees handled yourselves very professionally, and we were very impressed with all that you did. Your ideas for the final effect turned out better than we could have ever attempted on our own.

We were also very appreciative that the landscapers did such a great job cleaning up after the project was complete. They did a thorough job, and they were always very polite and friendly. We just wanted to let you know that you are welcome to use us as a reference, or whenever someone wants to look at a house you have landscaped.

With sincere thanks,

John & Diane Thornton
